Dispensary and Refilling Policy

Naturopathic Doctors have been regulated since the 1920s in Ontario. Since July 2015, registered NDs are now governed under the Regulated Healthcare Practitioners Act (RHPA) as are all other registered health and paramedical professionals.

Having a dispensary in naturopathic clinics remains a “non-conflict of interest”. Naturopathic doctors, however, have to go below the SRP (suggested retail price) as the profit can only cover the expenses of having a dispensary.

Beaches Naturopathic Clinic has front desk personnel who are employed to order, take calls, clarify scripts and relay and questions or concerns to Drs. Cynthia Bondy, ND, Vanessa Ling, ND, or Emily Elliot, ND.

Supplements and nutraceuticals are not regulated and therefore do vary in quality and ingredients by brand. On the other hand, medical scripts from a physician with drug names never lead to confusion when purchasing. So please always get the exact brand or formula prescribed on your naturopathic script. Quality, specified ingredients and dosage are a must to attain optimal health.

Beaches Naturopathic Clinic will make sure you get the quality brands and exact formulas that fit your specific needs assessed by your Naturopathic Doctor.

BNC orders nutraceuticals and supplements as needed to keep prices 40-60% below SRP.

At BNC, our front desk personnel will inform you of any change of brands or formulas when refilling. Your naturopathic doctor is constantly keeping up-to-date on ongoing research and better pricing to benefit their patients.

Please inquire about any possible changes with your health or your script before refilling any of your supplements and nutraceuticals at any dispensary. For your safety, do not continue past scripts if you do not plan to be re-assessed every 6 months or at least annually.

By signing below, I confirm that I have read and understand the above policy.
